

Geometry in the Ethiopian Churches

Briar Grimley is offering a brand new
Geometry for the Joy of It! experience...

Monday 8th and Wednesday 10th October 9.00 – 12.30
Sophia House, Plumstead, Cape Town

St Geogis church – one of the 10 churches carved out of solid rock in Lalibela, Ethiopia

Geometry of the earth and spirit is embedded in the churches in Ethiopia. We will look a little at the context of these churches and explore some of the forms through drawing and clay.

This will be a time when you can bathe quietly and gently in a held space, imbuing yourself with the power of meaning-filled shape, with eternity as your companion.

Cost: R500
Enquiries and bookings: kallosophiabg@gmail.com
023 625 1009; 0728337228
